

Exhaust fumes

Double exhaust trolley

Adjustable trolley for placement behind cars with exhaust pipes on both sides.

Adjustable in height from 60-785 mm and in width from 320 - 1640 mm measured from the center of the nozzle.

The arms can be adjusted from 90°-180° and the nozzles can be tilted approx. 45°, so the openings face obliquely upwards.

The trolley has 4 turnable wheels.

The trolley is fitted with nozzles, hoses, and Y-piece for connection to a hose \varnothing 100 mm. The hoses are GeoFlex Exhaust (220°C)

Adjustable exhaust trolley
